Description: Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vans, has determined that on certain Mercedes-Benz Metris vehicles (Platform 447) the sum of the maximum load ratings of the tires may exceed the permissible maximum axle load rating pursuant to FMVSS 110, S4.2.2.2. Overloading over time could cause excessive tire wear and in a worst case scenario, could lead to tire failure, increasing the risk of a crash. An authorized Mercedes-Benz Metris dealer will replace the tire information label on the B-pillar and fuel filler door. Dealers will also check the tires on the vehicle to verify that they are the correctly specified tires. If the tires on the vehicle are of a lower rating than what is specified in the Operators Manual, the tires will be replaced with new tires having the specified load rating. This repair will be done free of charge.

Overloading over time could cause excessive tire wear and in a worst case scenario, could lead to tire failure, increasing the risk of a crash.

Remedy: An authorized Mercedes-Benz Metris dealer will replace the tire information label on the B-pillar and fuel filler door. Dealers will also check the tires on the vehicle to verify that they are the correctly specified tires. If the tires on the vehicle are of a lower rating than what is specified in the Operators Manual, the tires will be replaced with new tires having the specified load rating. This repair will be done free of charge.

⊖ [Learn more about this recall](#)

Description: Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vans, has determined that on certain Mercedes-Benz VS20 Metris vehicles (platform 447), a hardware defect in a memory chip within the rear view camera may cause the camera image in the rear view display to freeze. In this case, the rear view display might not show an accurate and reliable view to the driver of the areas behind the vehicle. As a result, the driver might not be able to see certain objects behind the vehicle, which could increase the risk of a crash while backing up. MBUSA is conducting a voluntary recall. An authorized Mercedes-Benz dealer will replace the rear view camera and perform a software update on the affected vehicles.

In this case, the rear view display might not show an accurate and reliable view to the driver of the areas behind the vehicle. As a result, the driver might not be able to see certain objects behind the vehicle, which could increase the risk of a crash while backing up.

Remedy: MBUSA is conducting a voluntary recall. An authorized Mercedes-Benz dealer will replace the rear view camera and perform a software update on the affected vehicles.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Fleet Vehicle

Vehicle was registered or sold to a company that manages vehicle fleets.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
